

How Scorton Medical Centre uses your information to provide you with healthcare

This practice keeps medical records confidential and complies with the General Data Protection Regulation.

We hold your medical record so that we can provide you with safe care and treatment.

We will also use your information so that this practice can check and review the quality of the care we provide. This helps us to improve our services to you.

- We will share relevant information from your medical record with other health or social care staff or organisations when they provide you with care. For example, your GP will share information when they refer you to a specialist in a hospital. Or your GP will send details about your prescription to your chosen pharmacy.
- We are in the process of changing IT systems. One of the benefits of this will be that we will be able to share the contents of your record with other organisations who provide you with care electronically. We will not be doing this initially and you will be asked specifically before we share your record.
- Healthcare staff working in A&E and out of hours care will also have access to your information. For example, it is important that staff who are treating you in an emergency know if you have any allergic reactions. This will involve the use of your Summary Care Record. For more information see: <https://digital.nhs.uk/summary-care-records> or alternatively speak to your practice.
- You have the right to object to information being shared for your own care. Please speak to the practice if you wish to object. You also have the right to have any mistakes or errors corrected.

Other important information about how your information is used to provide you with healthcare

Registering for NHS care

- All patients who receive NHS care are registered on a national database.
- This database holds your name, address, date of birth and NHS Number but it does not hold information about the care you receive.
- The database is held by NHS Digital, a national organisation which has legal responsibilities to collect NHS data.
- More information can be found at: <https://digital.nhs.uk/> or the phone number for general enquires is 0300 303 5678

Safeguarding

- Sometimes we need to share information so that other people, including healthcare staff, children or others with safeguarding needs, are protected from risk of harm.
- These circumstances are rare.
- We do not need your consent or agreement to do this.
- Please ask a member of staff if you would like to see a copy of our safeguarding policy

We are required by law to provide you with the following information about how we handle your information.

<p>Data Controller contact details</p>	<p>Scorton Medical Centre Stags Way Scorton DL10 6HB</p>
